

OCT 2017 EDITION

MYERTONPACKAGING
— one stop packaging —

Myerton Packaging Pty Ltd. is an Australian based business established in 2011. Before our establishment, there was very limited selection of packaging products for local businesses, especially the ones with custom print or sizes.

We provide one-stop packaging solutions for small and medium enterprises (SME) in various industries at medium to upmarket level. We create inspiring, practical packaging for your brands. We understand packaging can form an intrinsic part of your product sales. That is why you need a reliable, considerate supplier who can support you. We agree it is important for SME to watch budget and manage cash flow, however, we believe it is more important to help SME to increase production efficiency, build strong brand awareness and increase market shares.

We welcome the opportunity to help you customize your packaging to maximize your brand image through all sorts of packaging products.

SELF ADHESIVE LABELS

When shelf appeal counts,
count on Myerton Labels to
win consumers' attention!

Printing technology

DIGITAL

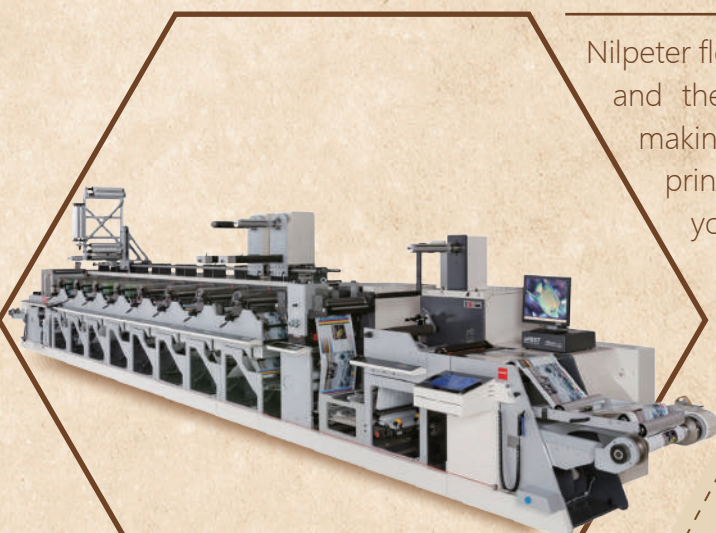

The HP Indigo WS6800 Digital Press is the market-leading narrow-web printing solution for digital labels. It allows you to print any label, at any run-length in a simpler, more productive and profitable way.

BENEFITS

- No printing plate
- Short runs, multiple designs,
- Consistent color and colour to colour registration
- Wide range of substrates
- Variable print data
- True press proofs

Printing technology

FLEXOGRAPHY

Nilpeter flexographic printing press offers high speed output and the ultimate cost performance. Our digital plate making technology together with the latest flexographic printing press is the solution to reproduce the graphics you created for your brand, on time and on budget.

BENEFITS

- High speed output
- Ultimate cost performance for large runs
- Multiple substrates

Printing technology COMBINATION

Our Label Printing Presses have Rotary Screen, Offset, Flexography and Hot/Cold Stamping, embossing units in-line. Using "Combination Technology" Our Label offers maximum decoration creativity to print graphics on your packaging that impacts consumers and attracts them to your brands.

BENEFITS

- Ink film thickness/opacity
- A range of metallic colors
- Tactile feel
- Attract customers in seconds.
